1

For each 1.25 dl/4 oz of water put 1 rounded tablespoon or 1 BODUM® scoop of coarse ground coffee into the pot.

2

Pour hot water into the pot. Leave a minimum of 2.5 cm/1 inch of space at the top. Stir the brew with a plastic spoon.

3

Hold the pot handle firmly with the spout turned away from you, then using just the weight of your hand, apply slight pressure on top of the knob to lower the plunger straight down into the pot.

4

Turn the lid to open the pour spout and then pour coffee.
